Male & female threads
for the triangle fixing plates

Assembly instructions:

- i) Fit 4 rungs into 1 short leg
- ii) Fasten with 4 male threads into the embedded female threads in the end of each rung using the Allen key
- iii) Fasten the remaining short leg on the other end of the rungs
- iv) Repeat steps i,ii, & iii with 5 rungs on the long legs
- v) Insert 6 female threads in the additional holes on the inside of each leg – 2 on the long legs and 1 on each of the short legs (there is already an embedded thread in each of the short legs for the quick release handle)
- vi) Hold up the 2 sides to form the basis of the triangle
- vii) Attach the 2 triangle fixing plates to either side of your formed triangle using 3 male threads in each, leaving the remaining hole for the quick release handles.
- viii) You will find the short leg now pivots. This can be secured in place with the quick release handles
