

Nursery Triangle User Instructions

What's included:

Parts:

Tools & fixings:

What you will need:

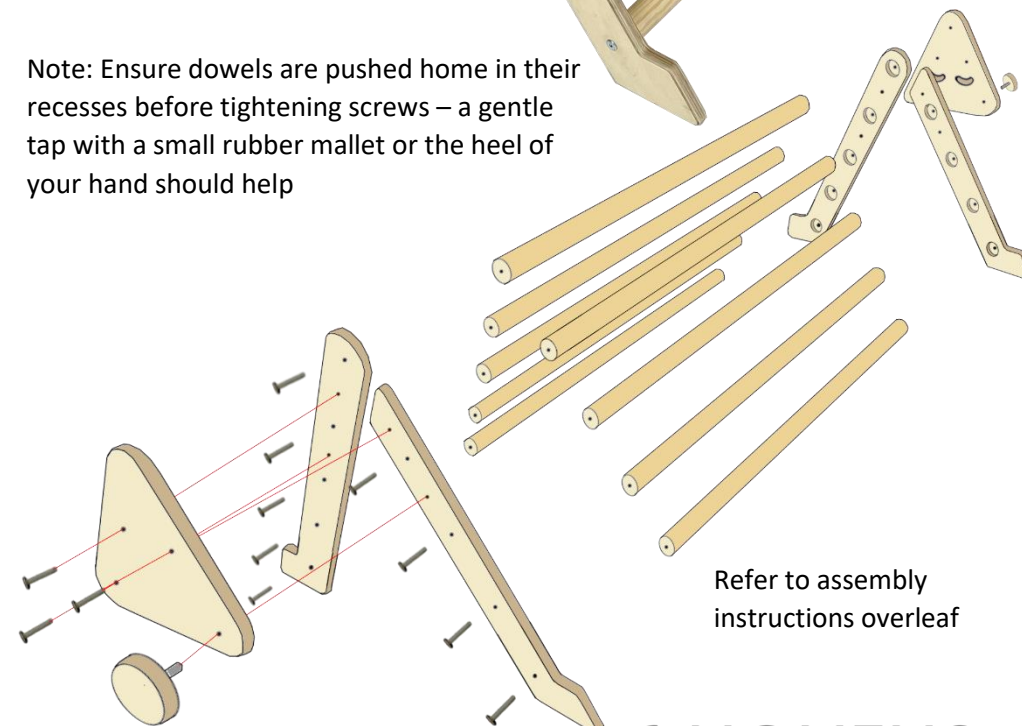

- i) Competent adult supervision

Products covered in this guide:

Name	MPN	GTIN
Nursery Natural Triangle	LPKTRI-NI-NAT	5060632681607
Nursery Gretton Grey Triangle	LPKTRI-NI-GG	5060632681683
Nursery Pastel Rainbow Triangle	LPKTRI-NI-PR	5060632681744

Note: Ensure dowels are pushed home in their recesses before tightening screws – a gentle tap with a small rubber mallet or the heel of your hand should help

Refer to assembly instructions overleaf

Assembly instructions:

Please refer to diagrams overleaf

1. The climbing triangle should be assembled by a competent adult
2. Lay one short leg flat on the floor
3. Insert a rung into each recess
4. With all rungs vertical, place the other short leg on top, align and fit into each recess
5. Ensuring correct alignment insert M6x30 bolts and finger tighten into the embedded female threads
6. Carefully turn over and repeat step iv on the other side.
7. When all rungs are seated correctly tighten with the supplied Allen key
8. Repeat steps I to vi with the long legs
9. Attach the 2 triangle fixing plates to either side of the long leg frame using 2 of the supplied bolts on each side
10. The short leg frame can now be attached using 1 bolt on either side in the higher fixing position.
11. You will find the short leg frame now pivots. This can be secured in place with the quick release handles in the lower fixing position

Do contact us if you are unsure of the assembly instructions

We recommend keeping these assembly instructions in a safe place for future reference. You can also scan the QR code for an electronic copy

Batch No.:

LIGNEUS PLAY

Warnings:

- The recommended minimum age for the climbing triangle and add-ons is 10months+
- The maximum number of users at any one time is 2
- The maximum weight per user is 50kg (∴ max 100kg)
- The climbing triangle is for indoor use – it can be used outside with care

Recommendations:

- The climbing triangle should be positioned at least 2m from any structure that could cause an obstruction
- The climbing triangle should not be installed over any hard surface
- Take care with orientation! Where there may be exposure to the sun, glare can impede climbing
- Use only manufacturer approved accessories

Maintenance:

- Regular checks should be carried out before and during use to ensure safe use of triangle
- These checks include:
 - Nuts & bolts (inspect & tighten as appropriate)
 - Visual inspection for any evidence of deterioration
- Replace defective parts as per manufacturer's instructions
- A wipe over with a damp cloth after use will help maintain the climbing triangle in good order
- Failure to carry out checks & maintenance may result in products overturning or becoming hazards
